

## Maternal Child Nursing Care 3rd Edition Third Edition By Wong Hockenberry Wilson Perry Lowdermilk Hardcover Copyright 2006 No Cd

A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text

The Seventh Edition of this colorful, student-friendly LPN/LVN textbook has been thoroughly revised to provide even more of the knowledge and skills today's students need to provide safe and effective pediatric care. The text covers foundations and special concerns of pediatric nursing, age-specific developmental information, and clinically-focused coverage of common pediatric illnesses and disorders, organized by growth and development. An updated art program includes hundreds of photographs and illustrations. Workbook pages at the end of each chapter include NCLEX-PN style review questions, study activities, critical thinking questions, and dosage calculations. A bound-in CD-ROM includes Watch & Learn video clips and pediatric dosage calculation problems.

This research-based clinical tool standardizes and defines the knowledge base for nursing curricula and practice, communicates the nature of nursing, and facilitates the appropriate selection of nursing interventions for nurses, including practicing nurses, nursing students, nursing administrators, and faculty. Includes 542 research-based nursing intervention labels with specific activities. Presents a definition, a list of activities, a publication facts line, and references for each intervention. Provides 34 brand-new interventions that address important topics such as defibrillator management, infant nutrition, toddler safety, and wound care: burns. Includes 77 substantively-revised interventions that supply the most up-to-date information on a wide variety of interventions, including chemotherapy management, hypnosis, radiation therapy management, exercise therapy, and shock prevention. Supplies updated and expanded lists of core interventions for 45 specialties. Each intervention now includes a publication facts line that indicates the timeline for development and revision of the intervention. A "call for reviewers" invites users to participate in future editions of Nursing Interventions Classification (NIC).

The seventh edition of this textbook for nursing undergraduates "encompasses the core aspects of evidence-based maternal-child nursing in health and illness, incorporating updates in clinical care and technology."--Page xi.

'Think like a nurse' with the 2nd Edition of this AJN Book-of-the-Year Award winner. It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity/pediatric courses. And, it's accompanied by The Women's Health Companion, a complete guide to the role of the nurse in promoting women's health. A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children, not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material. Don't miss the Plus Code, inside new, printed texts. It unlocks the resources online at DavisPlus, including Davis Digital Version, your complete text online, and an Electronic Study Guide with learning tools and clinical resources. Click here to see an overview of everything this resource has to offer. What instructors are saying... "Well written, eye-catching and well organized chapters" - Sami Rahman, MEd, MSN, RN Blinn College "Clear, concise, uses tables and figures to support important concepts and content." - Darlene A. Ardary, PhD, RN, CPN, CSN Lock Haven University "It is thorough on content and it contains many student tools like charts, tables and concept maps." - Carmen Torres MSN, MHS, RN, CNE Bergen Community College "I like the different aspects that are included that get the students engaged in learning. It is a comprehensive text to use when teaching Maternal child nursing. It is simple enough for all students but engaging enough to keep even your most adept student challenged." - Teresa Carnevale, PhD, MSN, RN Beaver College of Health Sciences "A complete continuum of the child from preconception through adolescents. All inclusive in a easy to read and understandable format." - Stephanie Palmersheim MSN, RN St. Luke's College Sioux City, Iowa "Good flow with information and material from Care of Maternal Health Nursing to Care of Pediatric Nursing." - Lisa Stoddart, MSN, RN, FNP-BC Associate Nursing Professor Pediatrics San Joaquin Delta College Awarded third place in the 2015 AJN Book of the Year Award in the Maternal-Child Nursing/Childbirthing category

An outline-format, inexpensive, paperback review book for undergraduate nursing students that can be used for course or subject review or NCLEX preparation. Contains NCLEX-style review questions in each chapter, a comprehensive exam, and additional questions on a back-of-book CD-ROM. This edition includes new NCLEX-style innovative item questions.

Fully updated and now in full-color throughout, Maternal-Neonatal Facts Made Incredibly Quick! Second Edition is the perfect point-of-care reference for nurses working with pregnant patients in any clinical setting. This pocket-sized book provides instant access to information nurses need quickly every day on all aspects of prenatal, intrapartum, postpartum, and neonatal care. The book includes a section on ECG interpretation, the most up-to-date ACLS guidelines, a glossary of common terms, conversion charts, and over 125 quick-reference charts and illustrations. Colored tabs help nurses find information quickly. The wipeable page surface allows nurses to write notes and remove them easily.

It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity/pediatric courses. A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children, not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material.

The nature of nursing embodies the ever-changing rewards and challenges for today's practical and vocational nursing students. Maternal-Newborn Nursing Care provides a foundation for safe, effective nursing care of women throughout pregnancy, labor, and delivery, and of the newborn. Features that promote success include: Critical thinking care maps and case studies to engage problem-solving for likely situations; Health Promotion Issues that explore current issues in healthcare and provide management solutions; Extensive review for NCLEX-PN exam preparation; Nursing care features such as priorities in nursing care, nursing care checklists, clinical alerts, and nursing process care plans; and Step-by-step procedures with rationales of nursing actions.

The perfect balance of maternal and child nursing care in a new textbook conceived and written to be a combination textbook! An extensive review by nursing educators ensures that it offers just the right depth and breadth of coverage for students in today's maternity/pediatric courses. Its unique emphasis on optimizing outcomes, evidence-based practice, and research supports the

goal of caring for women, families and children not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material. Validating Practice Optimizing Outcomes Moving Toward Evidence-Based Practice boxes Where Research and Practice Meet Be Sure To... Now Can You? Summary Points - Tools for Care A & P Review Labs boxes Step-by-Step Procedure boxes Medication boxes Assessment Tools Diagnostic Tools

This truly unique, bestselling review and preparation resource offers the perfect combination of core content review, practice questions with comprehensive rationales, and detailed test-taking strategies and tips. Throughout the book, you'll find Linda Silvestri's hallmark Pyramid to Success learning features, which highlight key information, and more than 1,000 high-quality review questions that mirror the latest NCLEX-PN® test plan. The companion CD contains all of the questions from the book, plus over 2,600 additional practice questions in a flexible electronic format that allows you to customize your study experience and focus on those areas you need to review the most. Twelve pharmacology chapters, a medication and intravenous calculation chapter, and a pediatric medication administration chapter prepare you for the increase in pharmacology questions on the exam. 3,700 practice questions in the text and companion CD provide ample testing practice in both print and electronic format. Covers all types of alternate item format questions, including prioritizing, decision-making, and critical thinking to help you prepare for this crucial component of the exam. UNIQUE! The companion CD offers 3,700 practice questions that you can answer in both a study mode and an exam mode, as well as the option to answer only alternate item format questions or focus on questions in a specific area of nursing content, client needs, nursing process, or cognitive level. UNIQUE! Linda Silvestri's hallmark test-taking strategies for each question offer important clues for analyzing and uncovering the correct answer option. UNIQUE! Page references to Mosby or Saunders textbooks provide specific resources for further study and self-remediation. Each question is categorized by cognitive level, client needs area, integrated process, and clinical content area to allow you to focus on your area of weakness. Pyramid Terms at the beginning of each chapter give you a quick preview of key content. Pyramid Points throughout the content outlines highlight content that typically appears on the exam. Pyramid to Success sections at the beginning of each chapter or major unit of the book provide an overview of the chapter, guidance and direction regarding the focus of review in each content area, and its relative importance to the most recent NCLEX-PN® test plan. A comprehensive exam in the text features 85 questions related to all content areas and parallels the percentages identified in the NCLEX-PN® test plan. Completely updated content reflects the April 2008 NCLEX-PN® test plan, so you can be sure you're using the most current information to prepare for the exam. A user-friendly, 2-color design helps you focus your studying on the most important information. Additional illustrations visually demonstrate key concepts to help improve your retention and recall for the exam. Audio questions on heart and lung sounds familiarize you with this anticipated new type of alternate item format question.

Thinking Critically case-based activities require students to apply the concepts found in the chapters to solve problems, make clinical judgement decisions concerning care management, and provide responses to patient questions and concerns. Reviewing Key Concepts questions in various formats give students ample opportunities to assess their knowledge and comprehension of information covered in the text. Matching, fill-in-the-blank, true/false, short-answer, and multiple-choice activities help students identify the core content of each chapter and test their understanding. Learning Key Terms matching and fill-in-the-blank questions let students test their ability to define all key terms highlighted in the corresponding textbook chapter. Perforated pages allow you to use activities for graded assignments. Answer key at the end of the book includes answers to all questions.

Maternal Newborn Nursing Care Plans, Second Edition teaches students and professional nurses how to assess, plan, deliver, and evaluate care for normal and abnormal pregnancy, including delivery and recovery for both the mother and baby. This new edition contains more than 65 of the most common and high-risk care plans for maternal and newborn nursing care using the nursing process approach. Organized according to clinical condition, Maternal Newborn Nursing Care Plans, Second Edition provides practical components for each care plan incorporating: \* Key nursing activities \* Etiologies and risk factors \* Signs and symptoms \* Diagnostic studies \* Medical management \* Collaborative problems \* Individualized care plans complete with the Nursing Interventions Classification (NIC)

One of the most complete nursing education learning systems available, Virtual Clinical Excursions is an online program that guides you through a virtual hospital where the patients are real and their conditions are constantly changing. By immersing students in a realistic, yet safe, nursing environment, VCE simulates the average clinical rotation by allowing users to conduct a complete assessment of a patient and set priorities for care, collect information, analyze and interpret data, prepare and administer medications, and reach conclusions about complex problems. Each lesson has a textbook reading assignment and activities based on "visiting" the patients in the hospital - providing a perfect environment to "practice" what you are learning. IMPORTANT: The virtual hospital will be accessible online coming Fall 2013. Online workbook includes a set of lessons to prepare and guide you through a variety of patient scenarios, which are all connected to your textbook. Physical examination interactions include unique images and assessment findings for each patient scenario. Patient chart provides quick access to vital information such as physician's orders, laboratory reports, patient education, nursing admission, and more, offering a richly detailed portrait of the patient. Electronic patient record houses data from the patient's entire hospital stay and offers the ability to record new data findings. Nurse-client interaction videos depict conversations and situations involving nurses, patients, family members, and hospital staff to help you discern between communications that are ideal and those that need improvement. Updated drug reference includes a comprehensive set of the latest drug monographs to help you make the best clinical judgments involving medication administration. NEW! Online format enables you to access Virtual Clinical Excursions from any PC or MAC with an internet connection. NEW! Laboratory guide provides standard value ranges for all laboratory values offered within the virtual patient hospital, so you can confirm and compare standard lab values against your patients' test results.

With easy-to-read coverage of nursing care for women and newborns, Foundations of Maternal-Newborn & Women's Health Nursing, 6th Edition shows how to provide safe, competent care in the clinical setting. Evidence-based guidelines and step-by-step instructions for assessments and interventions help you quickly master key skills and techniques. Also emphasized is the importance of understanding family, communication, culture, client teaching, and clinical decision making. Written by specialists in maternity nursing, Sharon Smith Murray and Emily Slone McKinney, this text reflects the latest QSEN competencies, and the accompanying Evolve website includes review questions to prepare you for the NCLEX® exam! Nursing Care Plans help you apply the nursing process to clinical situations. Procedure boxes provide clear instructions for performing common maternity skills,

with rationales for each step. UNIQUE! Therapeutic Communications boxes present realistic nurse-patient dialogues, identifying communication techniques and showing to respond when encountering communication blocks. Communication Cues offer tips for interpreting patients' and families' verbal and nonverbal communication. Critical Thinking exercises focus on clinical situations designed to test your skills in prioritizing and critical thinking. Updated drug guides list important indications, adverse reactions, and nursing considerations for the most commonly used medications. Check Your Reading helps you assess your mastery of key content. Critical to Remember boxes highlight and summarize need-to-know information. Want to Know boxes provide guidelines for successful client education. Glossary provides definitions of all key terms. NEW! Safety Alerts help you develop competencies related to QSEN and safe nursing practice. NEW! Unfolding case studies help you apply what you've learned to practice. UPDATED Evidence-Based Practice boxes highlight the latest research and the most current QSEN (Quality and Safety Education for Nurses) practice guidelines for quality care. UPDATED content includes the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, and the QSEN competencies.

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions.

CD-ROM guides you through Pacific View Regional Hospital, a virtual hospital setting where you can learn communication, documentation, assessment and safe medication administration. This hands-on learning experience is designed to help you improve both your clinical judgment and critical thinking skills while interacting with a number of virtual patients.

Preceded by Maternal-child nursing / Emily Slone McKinney ... [et al.]. 4th ed. c2013.

Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success.

Written specifically for the LPN/LVN student, this Third Edition of Introductory Maternity and Pediatric Nursing provides clear, well-illustrated, and clinically relevant coverage of pregnancy, birth, and pediatrics to help student's master key clinical and critical thinking skills and prepare for the NCLEX® exam and successful practice. This Third Edition is enhanced by new care plans in the clinical chapters, new case studies, a new art program, a new pronunciation guide, and more. Online video clips of live births, Cesarean delivery, breastfeeding, pediatric milestones, the well child, and the hospitalized child bring concepts to life in dynamic full color. To ensure student mastery of key topics, an integrated workbook at the end of each chapter includes NCLEX-style questions (many NEW to this edition), study activities, and critical thinking: "What Would You Do?" exercises.

There is a trend toward greater nursing liability due to tort reform, the increased litigiousness of society, & increased professional accountability for nursing practice. Legal Aspects of Maternal-Child Nursing Practice gives instructors, students, & professional nurses a better understanding of these legal issues & how to prevent risk. As the practicing nurse is often the main line of defense against patient injury & legal liability, this text offers a model for professional nursing practice to help nurses actively prevent injury & legal liability. Features \* Co-editors have over 25 years of experience in reviewing nursing malpractice cases. \* Many expert & well-known contributors are featured to provide a complete bedside risk management system for use in a variety of inpatient & outpatient settings. \* A conceptual overview of risk management, quality assurance, & total quality management prepares the nurse to take a proactive approach to preventing injury & litigation. \* Actual legal cases are used to demonstrate appropriate risk management intervention strategies in three key specialty areas: Obstetrical, Neonatal, & Pediatrics. Contents Section I: A Conceptual Overview Chapter 1: Accountability for Professional Nursing Practice \* Chapter 2: Empowering Women: A Theoretical Perspective \* Chapter 3: Empowering Women in the Practice Setting \* Chapter 4: Maternal-Child Nursing & the Law \* Chapter 5: Risk Management & Continuous Quality Improvement \* Chapter 6: A Model for Professional Nursing Practice Section II: Model Application in Obstetrical Care Chapter 7: Low-Risk Obstetrical Care \* Chapter 8: High-Risk Obstetrical Care Section III: Model Application in Neonatal Care Chapter 9: Low-Risk Neonatal Care: Level I Nursery \* Chapter 10: Medium-Risk Neonatal Care: Level II Nursery \* Chapter 11: High-Risk Neonatal Care: Level III Nursery Section IV: Model Application in Pediatric Care Chapter 12: Outpatient Pediatric Care \* Chapter 13: Inpatient Pediatric Care \* Chapter 14: Intensive Pediatric Care Appendix A: NANDA Nursing Diagnoses Appendix B: Professional Nursing Organizations Appendix C: High Risk Factors

Preceded by: Maternal & child nursing care / Marcia L. London ... [et al.]. 3rd ed. c2011.

Part of the popular LPN Threads series, the new edition of this market-leading textbook presents a clear, well-organized exploration of pediatric nursing for LPN/LVN students. It integrates cutting edge information with updated content, offering useful learning tools to reinforce fundamental concepts. Organized according to developmental stages, the book covers pediatric nursing from infancy to adolescence, with a separate chapter on end-of-life care for children and their families. With its easy-to-read, clear writing style, it provides exactly the right depth and breadth of content for LPN/LVNs. Organization by developmental stages. UNIQUE! Pediatric psychophysiologic responses to bioterrorism and threats of bioterrorism are found in Chapter 1. UNIQUE!

Nursing Briefs stress important content-related points and help you prioritize information. Communication Alert boxes identify key tips, specific to establishing successful nurse-patient-family communication. UNIQUE! Community Cues address home care and community-based care issues and tie in nursing care with larger community-based problems, such as nutrition, immunization, and health promotion. UNIQUE! Data Cues list assessment data to help you recognize possible pediatric disorders. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process as applied to pediatric disorders. 13 Skills follow the nursing process and are clearly presented in an Action/Rationale format and teach basic procedures used by the LPN/LVN in pediatric nursing settings. UNIQUE! Chapter 3 includes a section on NIC/NOC, classification systems used in many clinical and hospital settings. Online Resources appear at the end of each chapter and provide an opportunity for further study. Perforated Self-Assessment Workbook included at the back of the book features a variety of matching, multiple-choice, study questions, case studies with critical thinking questions, and Internet activities. UNIQUE! Critical Thinking Snapshots of selected clinical situations with brief scenarios are located after the Critical Thinking Questions at the end of selected Nursing Care Plans and provide visual examples of specific disorders to help you apply critical thinking skills to clinical situations. UNIQUE! January 2007 Recommended Childhood Immunization Schedule (Appendix A) for children, adolescents, and catch-up growth immunizations provide the most up-to-date information for nurses and families. UNIQUE! JCAHO's Lists of Dangerous Abbreviations, Acronyms, and Symbols provides guidelines for the prevention of medication administration error, especially serious in pediatric dosages. Health Promotion boxes highlight wellness and disease prevention in light of relevant Healthy People 2010 objectives. Content on evidence-based practice, increased cultural content added to Chapter 1: Child Health Evolution and new information on complementary and alternative therapies in Chapter 3: Care of the Hospitalized Child have been added. Home Care Tips related to specific disorders supplement the content on home care in Chapter 3.

This essential student resource is designed to help the student master the information presented in Maternal/Child Nursing Care, 3rd Edition. Specially designed to parallel material in the book, this helpful study guide is just what you need for in-depth study and review of the most important facts and information on maternity and pediatric nursing. Matching or fill-in-the-blank questions give students the opportunity to test their ability to define all key terms highlighted in the corresponding textbook chapter. A variety of questions (matching, fill-in-the-blank, true/false, short answer, and multiple choice) are used to provide students with ample opportunity to assess their knowledge and comprehension of the information covered in the text. Students are required to apply concepts (Thinking Critically) found in the chapter to solve problems, make decisions concerning care management, and provide responses to patient's questions and concerns. Answers to all questions are provided at the end of this Study Guide. The content reflects what's in the 3rd edition of the text book.

Quick Look Nursing: Obstetric and Pediatric Pathophysiology is a quick reference book that works well as a supplement to other text books. It covers areas such as Neuro, Immune System, Endocrine, and Respiratory. It's great for Pediatric and OB clinical courses, ADN and BSN students, and nursing staff development departments. Organized by a body system approach, each section begins with a brief review of anatomy and physiology and includes a listing of diagnostic measures pertinent to that system.

This handbook brings together information needed for the maternity and paediatrics portions of the RN curriculum. It is intended for programmes that teach this content in an extremely abbreviated time period.

Written by the foremost experts in maternity and pediatric nursing, Maternal Child Nursing Care, 5th Edition offers the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX® examination. This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that you should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

This convenient, money-saving package is a must-have for nursing students! It includes Wong's Maternal Child Nursing Care, 3rd edition text, the Mosby's Maternal-Newborn & Women's Health Nursing Video Skills, and Mosby's Care of Infants and Children Video Skills.

Nursing Concept Care Maps for Providing Safe Patient Care presents 200 sample care maps covering the diseases and disorders you'll encounter most often in clinical practice. They'll also help you develop the critical-thinking skills you need to plan safe and effective nursing care.

AJN Book-of-the-Year Award-Winner! A comprehensive women's health reference guide, this "pocket brain" delivers all the practical, evidence-based clinical information you need to care for normal and high-risk pregnant mothers, newborns, and their families in diverse hospital and community settings. This book delves into other women's health issues that may impact the care of the mother-baby dyad, such as culture, substance abuse, family planning, violence against women and sexually transmitted infections. Perfect for students, new-to-practice, or expert practitioners, this guide provides concise, comprehensive assessments, easy-to-understand tables of lab work-ups and values, common treatment guidelines and the steps to implement and evaluate nursing care. As a special feature to assist with learning how to check a cervix, you can practice using the dilation milestone cut outs inside the book!

Here's the clinical information you need at your fingertips to provide safe, effective, and compassionate care in maternity and pediatric clinical settings. Full-color images of nursing skills and procedures as well as tools and charts make

bedside reference easy.

Completely revised and updated, this broad yet comprehensive edition contains twenty-nine chapters on nursing issues and clinical practice. Topics cover practice and process, documentation, legal issues, health promotion, physical assessment, I.V. therapy, surgical care, and more. Disorders are organized by body system and feature an overview of anatomy and physiology, assessment, diagnostic tests, medication, treatment, and home care, with coverage of care for maternal-neonatal, pediatric, geriatric, emergency, and psychiatric patients. Added features include grabbing nursing procedure graphics, complementary therapies, clinical pathways, and cultural information. Over 1,000 illustrations, charts, and graphs enhance the text, with a new appendix relating Internet sites for nurses.

Maternal Newborn Nursing Care Plans, Third Edition teaches students and practicing nurses how to assess, plan, provide, and evaluate care for pregnancy, delivery, recovery, abnormal conditions, and newborn care. Featuring more than 65 of the most common and high-risk care plans for nursing care using the nursing process approach, it includes NIC interventions, discussions on collaborative problems, key nursing activities, signs and symptoms, and diagnostic studies. Using a progressive approach, the text begins with generic care plans that address all patient situations regardless of the patient diagnosis or condition before moving on to more complicated and specific care plans. Featuring the most accurate, current, and clinically relevant information available, Maternal Child Nursing Care in Canada, 2nd Edition, combines essential maternity and pediatric nursing information in one text. The promotion of wellness and the care for women experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health problems including physiological dysfunctions and children with special needs and illnesses are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing care. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Nursing Alerts point students to critical information that must be considered in providing care. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop analytical skills and apply knowledge in various settings. Emergency boxes guide you through step-by-step emergency procedures. Family-Centred Teaching boxes highlight the needs or concerns of families that you should consider to provide family-centred care. NEW! Content updates throughout the text give you the latest information on topics such as perinatal standards, mental health issues during pregnancy, developmental and neurological issues in pediatrics, new guidelines including SOGC, and CAPWHN, NEW! Increased coverage on health care in the LGBTQ community and First Nations, Metis, and Inuit population NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.
